

## VacInnov Day

November 25<sup>th</sup> 2014, La Pitié Salpêtrière (ICM)

*Provisional program*

**09:15-09:45** Introduction: **Landscape for innovation in vaccinology**

- Landscape for innovation (M. Fiorini)
- Vaccines Researches for the Future (B. Autran)
- Actions of the DVS “Innovation in vaccinology” (A. Rochard)

**09:45-11:00** **From laboratory to patient, change of scale**

*Moderator:* B. Combadière

**09:45-10:15** **Project of a vaccine development from an academic point of view**

09:45-10:00 C. Leclerc (Immune Regulation and Vaccinology, Inserm / Pasteur)

10:00-10:15 B. Verrier (Laboratory of Tissue Biology and Therapeutic Engineering (LBTI), CNRS / Université Claude Bernard Lyon 1)

**10:15-10:30** **Start-up as a relay for R&D**

*Speaker:* J. Couzet (InnaVirVax)

**10:30-11:00** **Tools to support collaborative public/private innovation**

10:30-10:45 Role of contract research organizations and innovation in maturation  
*Speakers:* Bertin Pharma (Patrick Brune\*) & CitoxLab (Roy Foster\*)

10:45-11:05 Clusters support to collaborative efforts  
*Speaker:* *tbd*

**11:00-11:30** **Coffee break**

**11:30-12:45** **Projects funding in Vaccinology**

*Moderator:* Inserm Transfert

*Speakers:* ANR (Matthieu Levi-Strauss), H2020 (Nacer Boubenna), BPI (Marielle Mailhes), Investisor (AURIGA bioseeds, Franck Lescure\*), SATTs (Jean Pierre Saintouil)

**12:45-14:00** **Networking lunch**

**14:00-18:00** R&D meetings between academics, biotechnology start-ups, pharmaceutical industries
